

**FORCE FOR GERMANY
LLOYD GEORGE HINT**

Premier Tells Commons Tensions
Are in Default on Three
Items in Treaty.

LONDON, April 18 (Associated Press).—The German Government, said Prime Minister Lloyd George in the House of Commons to-day, is still in default with regard to reparations, the trial of persons accused of offenses against the laws of war, and disarmament.

The Germans, continued the Prime Minister, have not thus far shown any inclination to advance practical proposals for carrying out the Treaty of Versailles in these respects, therefore it was imperative for the Allies to confer with regard to the further steps which might be necessary to enforce compliance with the treaty.

Mr. Lloyd George's statement was in answer to a question by Commander Kenworthy, Independent Liberal member, asking, since France intended to use force against Germany after May 15, whether British troops would be involved in a new demonstration.

**COURT IS HELD ON
HARLEM STREET**

Justice Lehman, Stenographer and
Witnesses View Rival Stores
on West 125th Street.

Supreme Court Justice Lehman held court in West 125th Street to-day to see for himself just how nearly alike were the fronts of the stores of the Hygrade Credit Clothing Co., No. 131 W. 125th Street, and the United Clothing Co., No. 133 West 125th Street.

The former company has brought injunction proceedings to restrain the latter from continuing to use its present "front," alleged to be a replica of the Hygrade front, thus detracting its customers to the rival store.

Lawyers examined witnesses on the sidewalk. Justice Lehman listened and his stenographer took notes while everybody talked. Meanwhile a cop had to keep the crowd moving. The case will be decided in the regular court house.

KAHN PRESENTS PAINTINGS.

HARTFORD, Conn., April 18.—Otto Kahn of New York has presented to the Wadsworth Athenaeum of this city three of a number of paintings which he recently purchased from famous French artists who were crippled by the war and were in need of immediate assistance.

The Athenaeum, in which the late J. P. Morgan was generously interested, stands next to and is interconnected with the Morgan Memorial erected to the memory of Junius Spencer Morgan. The three paintings which Mr. Kahn has sent to Hartford are "Baigneuse," by Paul Chavard, a brilliant early morning scene on a rocky shore, the sun breaking through heavy clouds; "St. Cloud sous la Neige," by P. J. Trenchant, an interesting composition of river, bridge and town under a soft covering of snow; and "Un Rio a Venise," a charming bit of a Venetian canal, by Raoul Serres, a Prix de Rome man.

SPANISH PHYSICIANS STRIKE.
AVILA, Spain, April 18.—Doctors here have declared a general strike because the municipality and provincial authorities have declined to increase their allowances for attendance upon the poor, which are now extremely small. They say the authorities are refusing to settle even at these low rates.

**WOMEN PETITION
FOR DISARMAMENT**

Urge President Harding to Use
His Influence for a
Reduction.

WASHINGTON, April 18.—Representatives of many women's organizations presented pleas to President Harding to-day that the United States use its influence for a world reduction of armaments.

The first deputation to wait on the President was from the League of Women Voters and included many prominent women representing among other organizations, the General Federation of Women's Clubs; the National Consumers League; the National Council of Jewish Women, and the Woman's Christian Temperance Union. They presented a resolution urging the President and Congress to "do their utmost to secure co-operation with other governments for the reduction of armaments at the earliest possible time."

Later in the day the Woman's Committee for world disarmament presented a petition for an international disarmament conference.

**FRENCH ARRIVE TO
STUDY HYDRAULICS**

Engineers Representing Railways
and Government to Make a
Tour of This Country.

In the hope of learning in this country how to harness streams in their own country, along which it is calculated eight to nine million horse power is continually running to waste, a commission of four French engineers will begin this week a six or seven weeks' tour of the United States. Two of them represent the railroad of France—P. G. Feuille and E. J. B. Touche—and M. E. Degove and H. I. Isarte are sent over by the Government. They reached New York Saturday and are making the Hotel McAlpin their point of departure.

Yesterday they explored the Grand Central Terminal. During this week they plan to look over the city's reservoirs, with special attention to the construction of the dams. After that their itinerary will carry them to all the great developments of hydraulic power in the country, including Roosevelt Dam and Niagara Falls, and also to the applications of this power to railroads and other uses.
